Made-to-order policy & FAQ

Everything we make is built by hand for your exact space. Here’s how that works — and what it means for orders.

Made to order — no returns

Because every drawer box, door, unit, and shelf is custom-built to your specifications, **all sales are final — we don’t accept returns or exchanges**. Before anything is built, you approve a photoreal 4K render of your exact piece, so there are no surprises.

> ⓘ **You approve it before we build it.** Your configured 4K render and build plan are attached to every order — what you approve is what we make.

Defects & remakes

We stand behind our craftsmanship. If a piece arrives **damaged or not as your approved 4K render**, we’ll repair, rework, or remake it at no cost — just contact us within 14 days of delivery with photos.

Frequently asked

How do I measure? −

For drawer boxes, measure your cabinet opening width, depth, and height; we account for slide clearances. Our measuring guide walks through each product, and you can preview the fit in 4K before ordering.
